Hongkone, August 25th, 1897. THE suggestion that Dr. JORDAN's assistant should be appointed Deputy Health Officer of the Port is not a solution of the existing, trade will be ignored, thus everything tends difficulty that is calculated to commend itself to the Government. Such a precedent as this would establish would be most undesirable and calculated to impair the efficiency of the public service. If the Health Officer of the Port is to be allowed to make private arrangements with an assistant to do his work for him why should not other Government servants be allowed the same privilege? If the principle were admitted we might conceivably have one set of officials drawing the emoluments of the offices lently appropriating the sum of \$4,000, in addiand another set of men, selected without reference to the Government, doing the work, on terms dependent upon a private arrange- being made for his transference to Shanghai. ment between themselves and the titular He was subsequently released by the Danish holders of the offices. The scandal that has arisen at Shanghai in connection with an appointment made on this principle is suggestive of reasons why the same course should not be adopted in Hongkong. Dr. Jordan by the terms of his engagment is entitled to private practice, and in proposing any alteration of those terms, or in effecting any reorganisation of the office that might lead to Dr. JORDAN'S retiring, he would of course be entitled to very liberal treatment at the hands of the Government. The time has apparently arrived, however, when it is essential that the Health Officer of the Port should devote his whole time to the duties of his office and when the relationship in which he stands to the Medical and Sanitary Departments who appeared for the Chinese, said the police -should-be-readjusted. - The Sanitary Board suggests that the change should not case the Chinese gentlemen resented being be made until a successor has to be appointed to Dr. JORDAN in ordinary course, but that gentleman seems good for an indefinite length of service yet and if the Sanitary Board's view be adopted it may be twenty years or more before the change

The American tariff monopolises all attanion, as it affects every channel of industria and commercial life. Whatever ferist it may bring to her Customs revenue concerns America herself. > idea that there was anything necessary to be done, Ambassador Hay and Mr. Foster have completely changed this view, and Great Bijtair is finally doing everything possible to meet the views of the United States. Doubtless this is partly owing to the support Mr. Foster's idea received from Russis and Canada. Sir Wilfrid Laurier and Sir D. H. Davies have all along favoured a conciliatory stitude towards the proposals of the United States. The conference will meet the third or fourth

week in October, the exact date being left to be determined by the arrival of the British experts from the sealing ground. Great Britain will be represented by Sir Jalian Pauncefote, the Ambassador, and Professor D'Arcy Thompson. The United States will probably be represented at Washington, and Russia by a commission, headed by Dr. Martens, Professor of International Law at the University of St. Petersburg, who was delegated by Russia to hold the pourparier with Mr. Foster, Canada will be represented by Sir Wilfrid Laurier and Sir L. H. Davies. The Conference will discuss the whole question as raised by the United States, will draft a scheme of protection for the scale, with details for carrying out the same, and will decide all claims. Its report will be not referendum, but as Russia and Japan are entirely favourable to the proten-

sions of the United States and as great Britain is indifferent so long as Canada is satisfied, the Conference may be said to be a diplomatic triumph for the United States, and a personal triumph for Mr. Foster. Unless if results in a divided report, which is not expected the governments concerned will immediately ambody the scheme in a permaners agreement either in the form of an agreement or a me-

morandum, so that it can be so arounted in the sesson of 1898. The St. James Gasette referring to the forthcoming international conference on the

sealing question, says: "American consider the Conference another elimb down for the British and not unnaturally. Mr. Sherman's despatch will be regarded as the direct cause. THE NEW FRENCH REMEDY. AGENTS WANTED, THERAPION Liberal Discount Allowed. This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord. Rostan, Johert, Velpeau, and others, combines all the

desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed. THERAPION No. 1, in a few days only, removes all discharges from the urinary organs, effectually superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases. In dysentery, piles, irrita-tion of the lower bowel, cough, bronchitis, asthma, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording, prompt relief where other well-tried remedies have

This preparation parifies the 2.00 whole system through the blood, and thoroughly climinates every poisonous matter from the body.
